We will continue with Module 1 as students make number bonds through ten with a subtraction focus and apply to one-step word problems. Students add and subtract in the ones place within the teens. This sharpens their skill of separating the ten from the ones and applying their knowledge of sums and differences to 10 to the teen numbers (e.g., $13 + 2 = (10 + 3) + 2 = 10 + (3 + 2)$). In this week's lessons students also remember they can use a basic fact to subtract from the ones place when there are enough ones (e.g., $5 - 3 = 2$ so $15 - 3 = 12$).
